BIDDER WITH NAME OF REPRESENTATIVE

S#	Name of Representative	Name of Bidders
1.	Mr. Junaid Raza	M/s. MSSJ Enterprises

The meeting started with a recitation from the Holy Qur'an. The chair welcomed the participants and then commenced the proceedings. The Forum was apprised that the notice inviting tender (NIT) was hoisted on DUHS and SPPRA websites at tender ID No. EPADS-S-241241039. The NIT was published in 3 widely circulated leading dailies of English, Urdu and Sindhi languages viz. Daily Dawn & Daily Kawish on 05-12-2024 and Daily Jang on 06 Dec. 2024. Additionally, a corrigendum announcing the extension of the bid submission and opening schedule appeared in Daily Dawn, ~~_____~~ and Daily Kawish on 06/12/2024.

The participants were informed that 37 suppliers downloaded the bidding documents from the authority's website, whereas a single e-bid of M/s MSSJ Enterprises was received through E-Pak Acquisition and Disposable System (EPADS) of the Sindh Public

Procurement Regulatory Authority (SPPRA), up to the bid submission deadline i.e. 23 December 2024 at 11:30 Hrs.

It was briefed to the participants that initially, only Technical Bids / Proposals will be opened and evaluated in a manner prescribed in bidding documents, without reference to the price, and any proposal which does not conform to the specified requirements will be rejected. Financial Bids / Proposals of technically qualified bids shall be opened publicly at a time, date and venue announced and communicated to the bidders in advance. Financial Bids / Proposals found technically rejected / disqualified / non-responsive shall not be considered.

Accordingly, the Procurement Committee conducted a preliminary examination of the bid and it was observed that M/s. MSSJ Enterprises had not attached some supporting documents with their offer.

The committee deliberated on the possibility of issuing a new tender but concluded that it would result in significant delays to the project timeline as the UPS will be directly connected to the highly valuable, sensitive, and delicate PET CT to ensure uninterrupted operation and protect the equipment from power disruptions or fluctuations, PET CT depend on advanced electronics and precise data processing, both of which can be severely affected by unexpected power outages or surges, which may cause data loss, equipment malfunction, or extended downtime.

It was also discussed that the bid was advertised in compliance with the rules set by the Sindh Public Procurement Regulatory Authority. However, despite 37 suppliers downloading the bidding documents, only one bid was submitted, making it uncertain whether re-tendering would attract additional suppliers.

Therefore, the committee unanimously agreed to obtain clarifications / missing supporting documents from M/s. MSSJ Enterprises to address the shortcomings, ensuring the project proceeds as planned and delays are avoided in the public's best interest.

The meeting ended with a vote of thanks to and from the chair.
